This course is a mixed ability class, taught in a relaxed environment. This course is not tailored for specific ability levels and not all techniques will be revisited each term. All abilities are welcome; however a basic understanding of drawing is necessary. Students will be able to work on individual projects, in a guided atmosphere. The tutor will be on hand to guide and develop your learning and understanding of life drawing. The course will be taught by tutor demonstrations, 1:1 guidance and tutor handouts, as appropriate.

This term we will be reviewing the basic processes and methods to enhance your drawing skill, inspiring the confidence to expressively push your boundaries. Throughout the course, there will be references made to basic anatomy, colour theory and the processes used by current emerging and established, practicing artists.
